CONTROLLER UPGRADE PROGRAM

This upgrade program now available on older generation controllers provides an extremely cost effective upgrade path to our state-of-the-art TMC470.

Details:

- Special upgrade pricing contingent upon the return of any TMC090 controller and on all TMC400 and TMC420 controllers purchased before Sept. 30, 2013.
- Upgrade allowance of \$2,390 results in a total upgrade price of only \$3,950. (This price is applicable only for controllers with standard software packages. Upgrades for applications requiring custom software features can be quoted on a per application basis.)
- **MERLIN III**[®] software interface included at no additional charge for all applicable TMC470 configurations (TMP6100, TMP3200 and TMP1700) compatible with pattern files created on TMC090/**MERLIN II**-based systems.
- I/O and serial adapter cables included for ease of replacement. (In the event that the remote online input feature was utilized on the original controller, an all new discrete I/O cable will be required using the I/O connector kit provided with the TMC470.)
- Pattern conversion utility provided allows pattern files created on TMC090, TMC400 and TMC420-based systems to be automatically converted for use on the TMC470.
- All applicable TMC470-based system documentation as well as controller operation tutorial.

For more program information, contact Telesis Sales.
